

Lean Manufacturing Seminar Streamlining Operations

3rd November 2009, RBS Williams Conference Centre, Oxfordshire

Agenda

09.30 Registration & coffee

10.00 Welcome Presentation

A short introduction to Wonderware United Kingdom, EmsPT, the presenters and topics to be covered throughout the day.

10.15 Plant Visibility for Continuous Improvement

During this session EmsPT will discuss how Technology can DRIVE the transformation of data into information to stimulate cycles of Continuous Improvement.

- **Improving Performance (OEE and Downtime)**
- **Discovering the effects of changeovers**
- **Reducing rejects and rework**
- **Data for Kaizen and 6 Sigma projects**

11.00 Coffee Break

11.15 Lean Manufacturing Operations

EmsPT will discuss how to use Technology to identify and remove waste and discover value adding processes. We will then look at how the application of software can be used to achieve best in class Lean Manufacturing Operations. We will cover:

- **Using Traceability to understand your Value Stream**
- **Removing the Waste from your paper trail**
- **Standardising your Electronic Operating Procedures**
- **ERP Integration with manufacturing operations**

12.00 Presentation 3

Success Story

12.30 Lunch

13.30 Lean Energy

EmsPT will discuss how to facilitate a Continuous Improvement Programme for monitoring and targeting your energy consumption in relation to your manufacturing output with long-term sustainable results.

14.00 Closing Address, Discussion and Q&A Session

An opportunity to join a structured yet open Q&A based session to discuss key issues surrounding Lean Manufacturing and Best Practice with EmsPT and Wonderware specialists.

Free Venue Tour is scheduled to take place at the end of the seminar
